

Resources Division

Coding and Compliance Editor (CCE)

What It Is...

CCE supports the Department of Defense efforts to improve coding accuracy of clinical information, ensure correct billing and reduce the risk for non-compliance.

Key Features and Benefits

- Increases data quality
- Maximizes reimbursement reporting capabilities
- Automates coding rules consistent with commercial standards
- Reduces risk of federal regulation reimbursement non-compliance
- Trends coding performance
- Improves revenues generation and collection

Highlight

December 2011: CCE became CAC enforced and started the CAC implementation process. This Department of Defense mandate allows users to sign-in using CAC cards without using their username and mandatory 15-character password. Currently 92 out of 99 sites are CAC enforced.

What Users Are Saying...

“CCE is a great system. I have had no problems with CCE.”

“I approve of the monthly CCE webinar training.”

“Very pleased with CCE webinars.”

“CCE webinar training is outstanding.”
